On first meeting Dave, I knew that there was something different about him. I couldn't quite put my finger on it, but he seemed to be very present and mindful in our interactions. I found him to be a great listener and dedicated to self improvement, which is a rare find in today's day and age. It was later that I learned that Dave is a "Champion of Culture" and assists clients with self improvement on a daily basis.

I appreciate it when I see someone who actually practices what they preach. Dave is just that person and I believe he leads by example in all that he does. I greatly enjoy my interactions with Dave and I learn something from him on almost every encounter. Thanks Dave for leading by example. Keep up your good works.
